

FOR IMMEDIATE RELEASE

Contractor Connection®'s MyContractor iOS App Now Available

Homeowners can find a Qualified Local Contractor and Monitor Home Improvement and Repair Work

JACKSONVILLE, Fla. (May 14, 2015) – Contractor Connection® is now more accessible than ever to consumers with the launch of its new, free app, MyContractor, which is now available for both Apple® iOS and Android devices. Consumers can use the app to request a qualified contractor and track the progress of their home remodel or repair project from their smartphone or tablet device. To download the app from Apple's App Store, go here <https://itunes.apple.com/US/app/id976602082?mt=8> or search "MyContractor" in the store at <http://store.apple.com/us>. To download the app from the Google Play store for Android phones, go here <https://play.google.com/store/apps/details?id=com.mobiquity.contractorconnection.app&hl=en> or search "MyContractor" in the store at <https://play.google.com/store/apps>.

iOS is the operating system for Apple's iPhone®, iPad® and iPod® touch. The iOS MyContractor app allows homeowners to get easily connected with a local contractor who is specifically appropriate for the work they need. Within the app, homeowners can manage all their home projects in one place and can add photos of the work in progress or of what the finished work should look like. The MyContractor app also details the free three-year workmanship warranty homeowners automatically receive when using Contractor Connection.

"Now with the iOS MyContractor app consumers with iPhones can manage many elements of their home improvement or repair work," said Lance Malcolm, chief operating officer of Contractor Connection. "MyContractor is an easy to use tool to find the right Contractor Connection contractor and monitor the progress of their project."

Requesting a contractor through the app is simple and is just one of its several functions. Homeowners can tap “Get Started” on the app’s home screen, enter the ZIP code where their project is being done, describe their project and request a contractor at no cost. They will then be contacted within 24 hours by the contractor appropriate for their needs, and they can arrange a meeting with the contractor and receive a free estimate for their project. The app’s features also include the ability for homeowners to describe what they want done in detail and the desired timeframe they want for the project’s start through completion.

Once the homeowner approves the estimate, work begins promptly according to the schedule, and the homeowner can use MyContractor track to track the project until it’s finished. After project completion, the homeowner will be able to fill out a customer satisfaction survey via email and submit it to Contractor Connection.

About Contractor Connection® Contractor Connection®, an industry leader in contractor managed repair and home improvement services, provides insurance carriers and consumers a national network of residential and commercial contractors that are vetted and managed for performance, measuring quality, timeliness and customer satisfaction.
